Masters's Thesis in Information Systems

How does AI agent identity design shape user interaction and outcomes in multi-agent collaborative work?

Inwiefern beeinflusst die Gestaltung der Identität von KI-Agenten die Interaktion der Nutzer und die Ergebnisse bei der Zusammenarbeit mehrerer Agenten?

Author:	Nicolas Leandro Lupke
Supervisor:	Univ. Prof. Dr. Helmut Krcmar
Advisor:	Dr. Frank Bodendorf
Submission Date:	

I confirm that this masters's thesis is my own work and I have documented all sources and material used.

Munich, Nicolas Leandro Lupke

1 Introduction

2 Related Work

2.1 PRISMA

3 Theoretical Foundations

4 Experimental Evaluation

4.1 Experiment Design

4.2 Shared Agent Identity

N spezialisierte Agents, aber alle heißen z. B. Peter, sehen identisch aus und treten als dieselbe Person auf

4.3 Distinct Agent Identities

N spezialisierte Agents mit unterschiedlichen Namen und Aussehen, z. B. Peter, Sam, Tim

5 Discussion
